Etude in Red and Blue – Ocean Art, vector image on aluminum, Stephen Carpenter, from Digital Directions 2023

Computer software and technology have forever expanded the ways artists capture and produce their work. Artists can weave together scenes in photoshop, produce paintings through a screen, create videos, animations, and projections that transport us to new worlds, and sculpt with a 3D printer. Maryland Federation of Art (MFA) invites all artists residing in any of the states or territories of the US, Canada, or Mexico to enter our 4th annual Digital Directions exhibition. Any original 2D or 3D image based work created and/or produced through digital software and following exhibition guidelines will be considered. This includes, but is not limited to digitally produced photography, digital painting, illustration, graphic design, digital video and projection. Works selected will be exhibited in MFA's Circle Gallery from January 31 – February 24, 2024. Exhibition Chair: Emil Petrucio.
