All These Miles 230923, mixed media on canvas, Lee Willet, from Digital Directions 2024

Computer software and technology have forever expanded the ways artists capture and produce their work. Artists can weave together scenes in photoshop, produce paintings through a screen, create videos, animations, and projections that transport us to new worlds, or even sculpt using a 3D printer. Any original 2D or 3D image based work created and/or produced through digital software and following exhibition guidelines will be considered. This includes, but is not limited to digitally produced photography, digital painting, illustration, graphic design, digital video, and non-film projection. Works selected by the Juror will be exhibited in Maryland Federation of Art's (MFA) fifth annual Digital Directions Exhibition in Circle Gallery from January 30 – Feb 22, 2025.
