

mFA In Contrast 2026

Contrast is a dynamic force in artistic expression, shaping perception, guiding emotion, and commanding attention. Whether through striking juxtapositions of light and dark, bold complementary hues, or the interplay of texture and form, contrast heightens impact and deepens meaning. It is a tool that artists have long used to create tension, harmony, and visual intrigue.

From the stark chiaroscuro of the Baroque to the electrifying oppositions in Fauvist color, contrast has played a defining role in art history. Op Art relies on optical contrast to create movement, while contemporary artists push boundaries by manipulating digital and material contrasts to challenge perception and provoke thought. In fashion and design, contrast is a marker of sophistication, think the enduring elegance of black and white or the rebellious clash of punk aesthetics. This exhibition explores contrast in its many forms, color, light, texture, subject, and concept. We invite artists working in all mediums to submit works that harness contrast as a powerful tool of artistic expression.

Any original 2D or 3D work that follows our exhibition guidelines will be considered. This includes works selected by the juror which will be exhibited in Maryland Federation of Art's (MFA) In Contrast Exhibition through our Virtual Gallery from December 15, 2026 – February 14, 2027.
